

Engineered Box Beams/Beam Wraps

Original Surface, Rustic Sawn & Smooth Surface

PRODUCT SPECIFICATION SHEET

Description:	<p>Once installed it's impossible to tell the difference between solid wood beams & Engineered Wood Beams. Overall installation is much easier as the engineered product is lighter, easier to fasten to ceilings, perhaps straighter, more stable and consistent in size.</p> <ul style="list-style-type: none"> • Wraps existing steel, wood or laminated construction components • Hides utilities such as duct work, plumbing & wiring • Can be used as purely decorative exposed beams <p>They're fabricated with the same reliable lamination process used to create our superior reclaimed engineered wood floors, utilizing a hydraulic press and premium adhesives.</p> <p>Please note: Box Beams & Beam Wraps are not intended for structural applications.</p>		
Species:	<p>Various Hardwoods (Oak, Elm, Beech, Chestnut, Maple, Poplar & Others) Various Softwoods (Heart Pine & Fir)</p>		
Color & Tones:	<p>Natural surface colors vary from ranges of grey & brown tones to black. Colors develop over the natural wood aging process, without the use of chemicals, dyes or paint. Colors & tones vary from timber to timber. Color can be altered with colored oils or various proprietary treatments.</p>		
Texture:	<p>Original Antique Rustic Sawn: • Original Saw Marks • Distressed Patina • Knots & Checking • Nail Holes Smooth Planed: • Smooth Planed • Knots & Checking • Freshly Exposed Grain • Nail Holes New Rustic Band Sawn/Circle Sawn: • Uniform Newly Milled Saw Marks • Less Variation in Color • Knots & Checking • Nail Holes</p>		
Grain:	<p>Mixed</p>		
Product Features:	<ul style="list-style-type: none"> • Kiln Dried • Denailed • 1/4" Solid Reclaimed Wood Laminated to Premium 1/2" Baltic Birch Substrate • 3/4" Overall Wall Thickness • Mitred Edges Provided • Available in 2-4 Sided Box Beams <p>Please Note: Shipped unassembled, unless specified.</p>		
Options:	<ul style="list-style-type: none"> • Power Washed • Wire Brushed • Patched Mortise Pockets • Assembly • Screw or Biscuit Pockets • Oil Finished <p>Please Note: Material is sold unfinished, unless specified.</p>		
Janka Hardness:	<p>Varied, Dependent on Species</p>		
Dimensions:	<table border="0"> <tr> <td data-bbox="288 1290 867 1414"> Widths & Heights: <ul style="list-style-type: none"> • Up to 12" per Side in 1 Piece in Width • Can Be Customized To Your Dimensional Requirements (Inquire About Odd Sizes & Larger, Dependant on Availability) </td> <td data-bbox="867 1290 1472 1414"> Lengths: <ul style="list-style-type: none"> • Up to 22' • Longer Lengths Can Be Spliced Together (Lengths in Single Pieces Possible Dependent on Availability) </td> </tr> </table>	Widths & Heights: <ul style="list-style-type: none"> • Up to 12" per Side in 1 Piece in Width • Can Be Customized To Your Dimensional Requirements (Inquire About Odd Sizes & Larger, Dependant on Availability) 	Lengths: <ul style="list-style-type: none"> • Up to 22' • Longer Lengths Can Be Spliced Together (Lengths in Single Pieces Possible Dependent on Availability)

Origin	<p>All our lumber is reclaimed from Eastern United States old barns, homes & factories that are generally 100+ years old.</p>		
Disclaimer	<p>Each reclaimed wood board is one-of-a-kind and can possess some or all of the aged characteristics. Variation is to be expected.</p>		
Limitations	<p>While reclaimed wood generally has denser grain structure when compared to new wood products, it does contain checks, marks, knotholes, nail holes and color variations, as well as slight variations in thickness typical of antique lumber. Please allow for these natural variations when designing the application.</p>
